

Bird, Bird, Bear

Directions

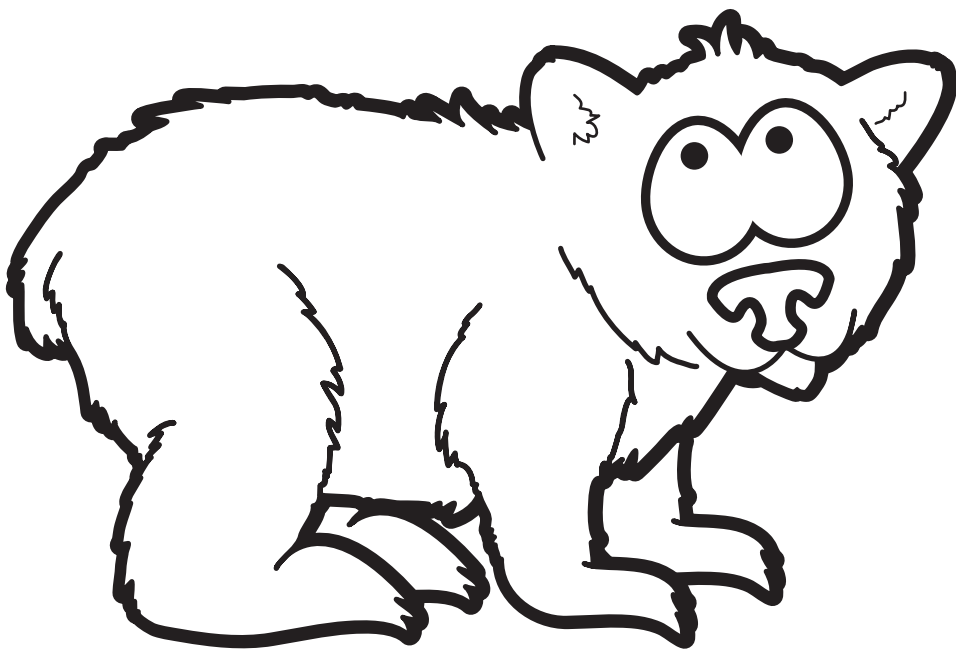

- Let your child color the bear piece, then cut out on the dashed lines.
- Fold the bear piece on the solid line and glue or tape the two sides together.
- Have a group of children sit in a circle and have one child stand. The standing child is the bear and holds the bear picture. He then goes around the circle tapping each child on the head while saying, one bird, two birds, three birds, etc. When he says, bear, have him drop the bear card in that child's lap and that child is the bear and chases him around the circle and tries to tag him before he sits down. Then do it again.
