

Build-a-Book: Seasons

Directions

- Ask your child what he likes to do in each season. Then let your child color the pieces and cut out.
- Fold three pieces of paper in half and staple on the center line to make a book. Help your child make a story using the picture pieces. Glue the pieces in book and help your child write the words to his story.
- To make a cover, fold another piece of paper over the book and staple. Explain to your child that he is the author of this book and help him write his name and the title to his book, then let him color the cover.
