 **WORKSHEET: Five Little Speckled Frogs**

After they do the song with the pictures, let them hop around like frogs.

## 5 Science

**ACTIVITY:**

### Feeling Fingers

Explain to the children that you will be talking about their fingers. Have them count their fingers and wiggle them around. Tell them the name of each finger and explain that our fingers help us feel. Then have a paper bag with items inside with different textures. Have the children take turns feeling an item inside the bag and guessing what it is.

## 6 Art

**ACTIVITY:**

### Firework Straw Art

Add a lot of water to each watercolor. Give each child a paper and a straw. Have them drop a color on their paper with a paintbrush, then blow the color with the straw to spread it across the paper.
