4 Music

 **WORKSHEET: Instrument Builder: Violin**

Play some violin music and have the children pretend to play violins.

5 Science

ACTIVITY: Build a Volcano

Give each child a plastic cup and let them make a volcano around it with play dough. Pour vinegar and red food coloring into each plastic cup. Explain that volcanoes are holes in the earth that melted rock, called lava, erupts out of. Then let the children pour baking soda into the cups. Find videos of volcanoes to show.
