

# Magic Spoon Show

## Directions

- Color the pieces and cut out. Tape or glue a label onto eight different styrofoam cups.
- In every cup but the one labeled magic powder, place a couple drops of food coloring.
- Try making new colors by mixing colors. Fill each of these cups full of vinegar, then mix.
- Fill the cup labeled magic powder with baking soda.
- Place each of the cups on a cookie sheet.
- Optional: Decorate a spoon with ribbons or glitter to make it look more like a magic wand.
- Have the children gather around and show them the magic powder cup and explain that in this cup there is magic powder that does magical things. Have each child take a turn pouring the baking soda into a cup.

## Materials
