

# Paper Airplanes

## Directions

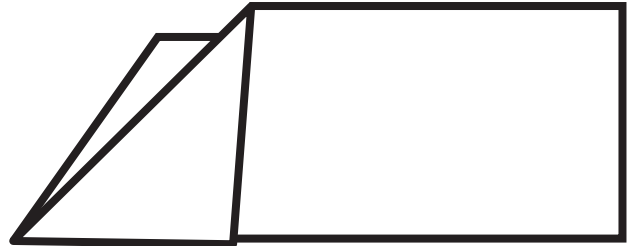

- Let your child color the paper, try using colored or patterned paper.
- Fold the airplane, then let your child experiment flying the airplane.
- Have airplane races or see how far and high your child can fly it then mark where it lands.

1

Fold paper in half, the long way.

2

Fold down the left corner, making a 90 angle to the bottom of the plane. Do the same on the other side, to the right corner.

3

Fold down the same corner, so that it lines up with the bottom. Do the same on the other side.

4

Fold down the same corner again, so that top of the fold and the bottom of the fold line up. Do the same on the other side.

5

Fold up the two flaps and it is ready to fly.
