Duck Floaters

EXPLAIN - Ducks can do something special, they can float on water. That means they don't sink into water but stay on the top, like a boat.

CHILD - Place the rubber duck in a large bowl of water, to show it floats.
- Choose an item from a variety items, guess if it will sink or float.
- Put it in the water. Color in the correct space on the chart.

FLOAT	
SINK
