

# Nighttime Mobile

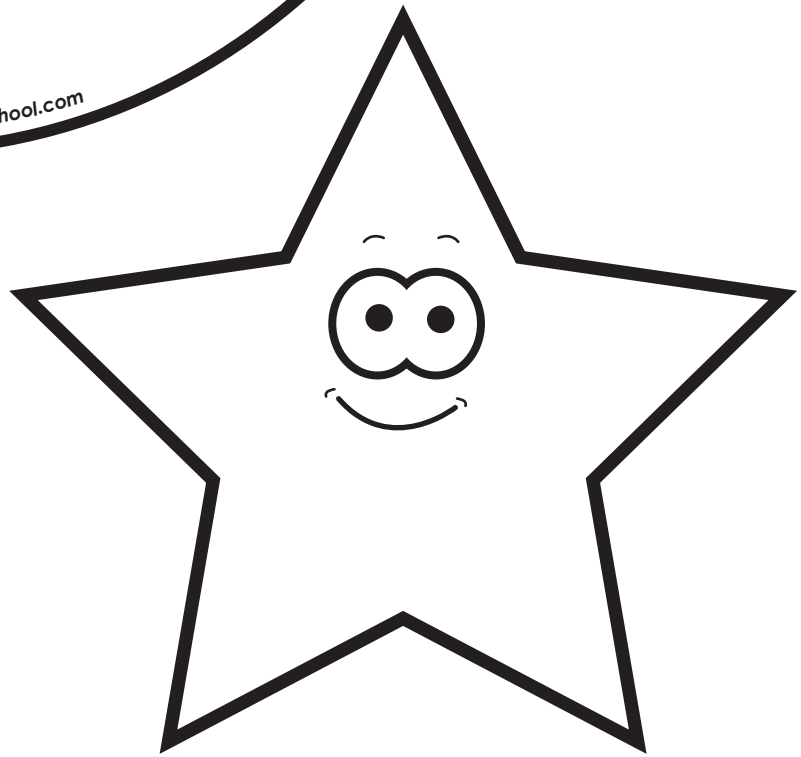

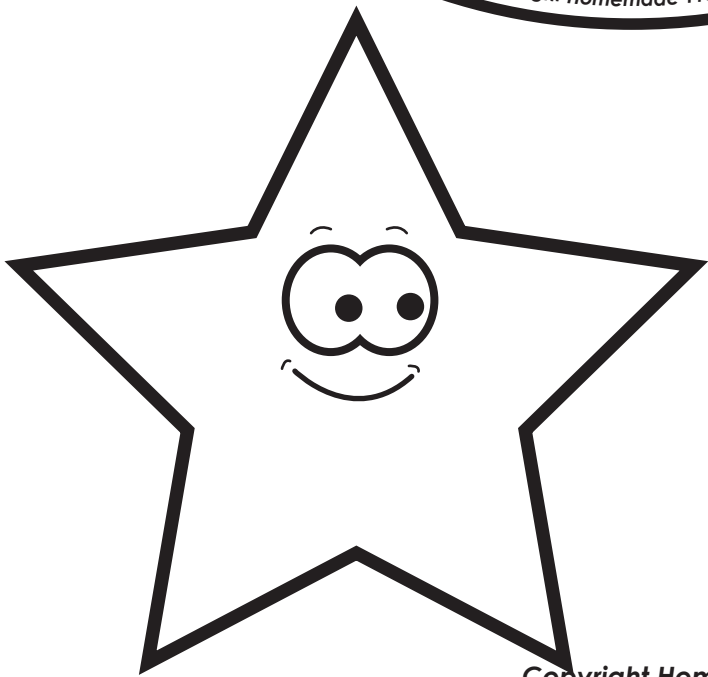

**EXPLAIN** - The earth spins around. When we are facing the sun it is daytime. When we are facing away from the sun, it is dark and it is nighttime. The moon is bright because of the sun's light shining on it. When it is dark we can see the stars shining.

- HELP** - Color and cut out pieces.  
- Tie a string to the top of the spiral. Tape a string onto the pieces and then tape to the spiral.
