

Ocean Friends

EXPLAIN - Most of the earth is covered in water called oceans.
In the water are many types of life and plants.

HELP - Color and cut out the pieces.
- Cut the dashed line on the ocean piece. Glue the coral piece around the sides
and bottom of the ocean piece but leave the top open.

CHILD - Tape a popsicle stick onto the back of each of the ocean friend pieces.
- Put the pieces up through the slot on the ocean piece.
