

Paper Helicopter

CHILD - Color a piece of paper.

HELP - Fold the helicopter.

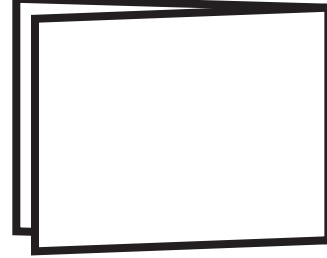

CHILD - Experiment flying the helicopter.

1

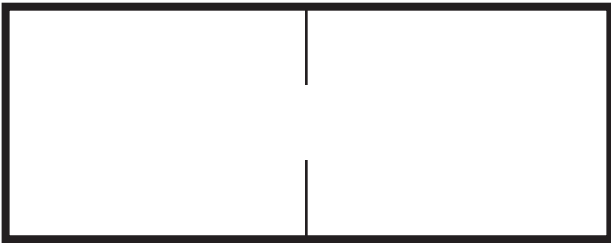

Fold paper in half, the long way, then cut on the fold.

2

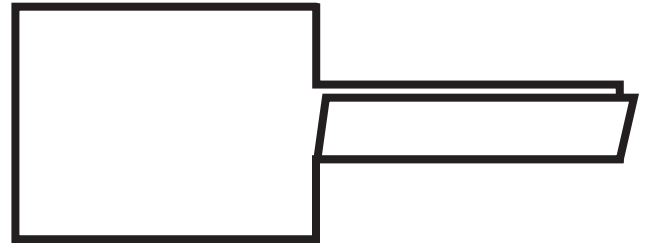

Fold in half, then unfold the paper.

3

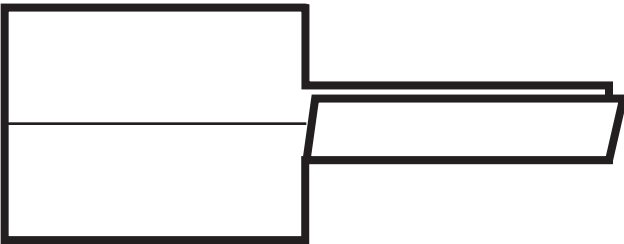

On the folded line, cut a line a third in on both sides. Don't cut all the way through.

4

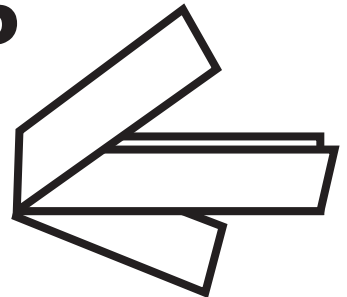

Fold one of the tabs on the front and fold one of the tabs on the back.

5

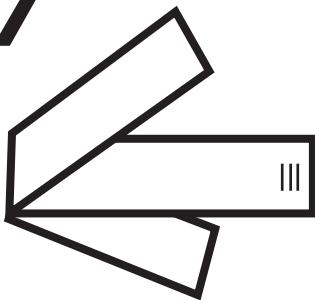

On the top of the paper, cut a line through the center.

6

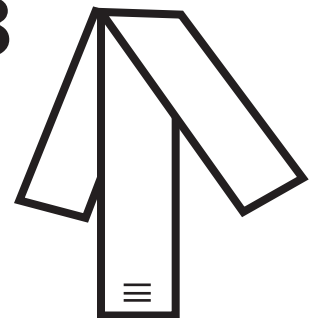

Fold one tab to one side and fold the other tab to the other side.

7

Staple the bottom of the paper three times.

8

Throw the helicopter up and watch it spin down. The higher you drop it the better it will spin.
