

# TV Electricity Hunt

**EXPLAIN** - Televisions use electricity to work. The electricity comes through a plug in the wall.

**HELP** - Color and cut out pieces. Cut the dashed lines on the TV screen.

- Tape two ends of the paper strips together, then push it through the two dashed lines and tape together to make a cylinder.

**CHILD** - Look at a picture on the TV piece and go on a hunt to electronic that you use with that item.
