

# Time for Recess Counting Game

## Directions

- Let your child color the pieces, then cut out. Fold the children pieces in half, then stand them up. Have your child choose a child piece to be.
- Explain that in kindergarten there will be recess time where your child can play outside. In this game he will be helping the children get to recess.
- Put the children pieces on start, then place the number cards face down in a pile. Have your child choose a number card, then move his piece that many spaces. If he lands on a bell, he has to go back to start. The game ends when he makes it to recess.
